- App Security & Compliance

Software Development

At FIDSOR, our Software Development services are tailored to build high-quality, scalable, and user-centric digital solutions. We transform your ideas into powerful applications that enhance performance, automate processes, and deliver measurable results across platforms.

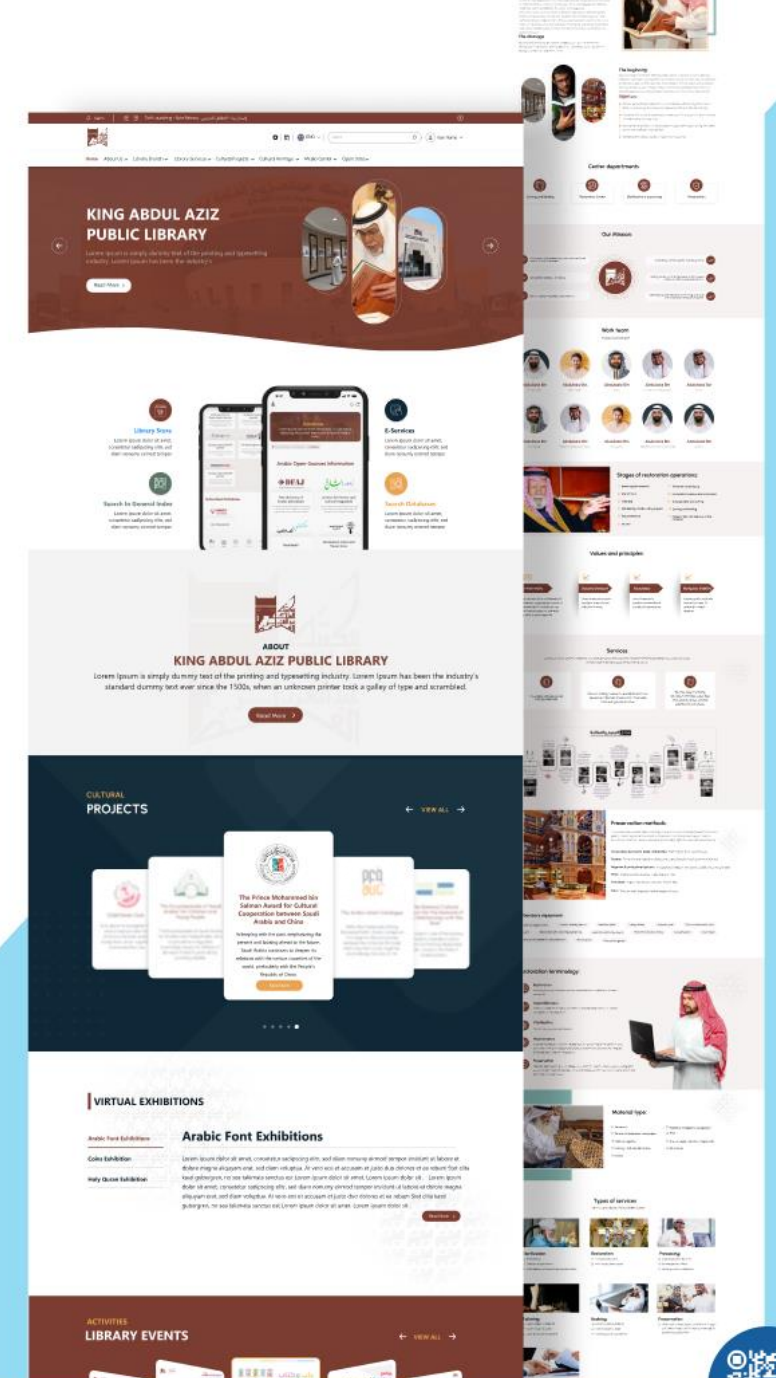

- Custom software solutions
- Full-stack development
- Web application development
- Mobile app development
- Backend system design
- Frontend Design
- Frontend UI/UX design
- API development & integration
- Database architecture planning
- Cross-platform compatibility
- Cloud-based solutions
- MVP development services
- Agile development process
- Product lifecycle support
- ERP Modernization
- Code quality assurance
- Post-launch maintenance
- DevOps implementation
- Performance optimization
- Scalable tech solutions

DevOps Services

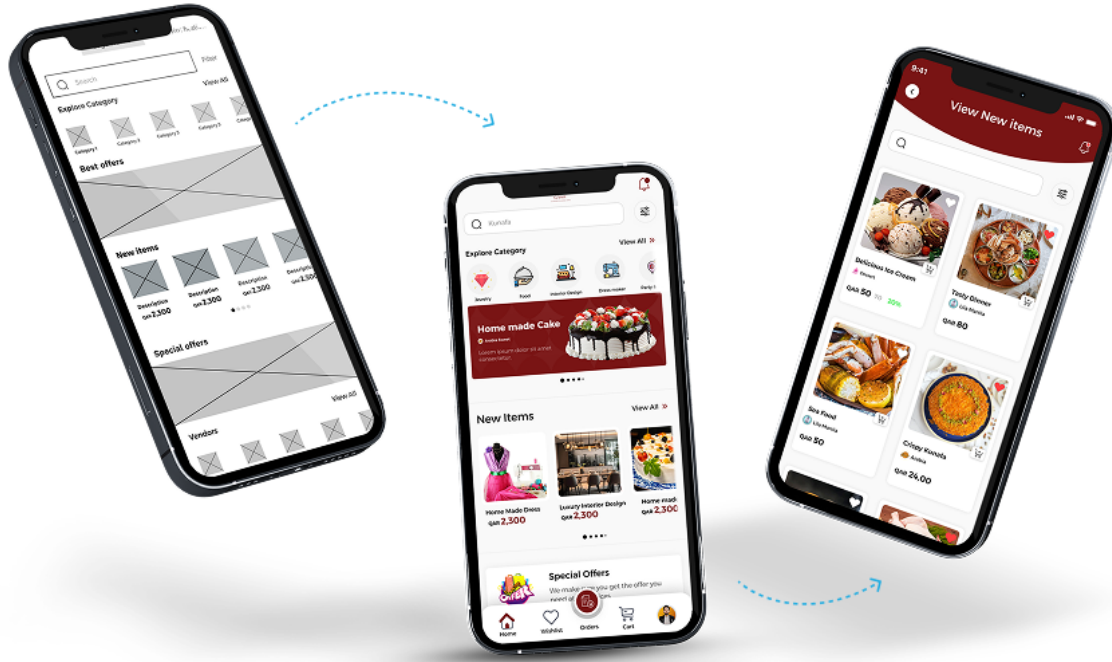

At FIDSOR, we offer comprehensive DevOps services designed to enhance your development and operations processes. Our approach integrates automation, continuous delivery, and efficient collaboration to accelerate your software delivery and improve system reliability.

- Continuous Integration
- Continuous Deployment
- Infrastructure as Code (IaC)
- Configuration Management
- Containerization
- Orchestration
- Continuous Testing
- Monitoring & Logging
- Cloud Infrastructure Management
- DevOps Consulting
- Release Management
- Security & Compliance
- Automated Build Systems
- Performance Tuning
- Disaster Recovery Planning
- Infrastructure Monitoring
- Version Control Systems
- Collaboration Tools
- Automated Documentation
- Incident Management

UI/UX Design

At FIDSOR, we transform ideas into exceptional user experiences through our comprehensive UI/UX design services. Whether you're developing a new product or enhancing an existing one, our team combines creativity and strategy to deliver designs.

- User Research
- Persona Development
- User Journey Mapping
- Wireframing

- Task scheduling systems
- Email automation setup
- Data entry automation
- CRM automation tools
- SEO for E-Commerce
- ERP process automation
- Low-code/no-code automation
- Report generation automation
- HR operations automation
- Custom script automation
- Document processing bots
- Low-code/no-code automation

Integration Services

At FIDSOR, our Integration Services help unify your business systems, applications, and data sources to create a connected digital ecosystem. We ensure seamless communication across platforms, enabling real-time visibility, improved efficiency, and smarter decision-making.

- System integration strategy
- API development & integration
- ERP & CRM Integration
- Cloud service integration
- Third-party tool integration
- Order Management Systems (OMS)
- Legacy system integration
- Data synchronization solutions
- Real-time data flow
- Middleware implementation
- Enterprise application integration
- E-commerce platform integration
- Payment gateway integration
- Mobile app integration
- Database integration services
- SaaS platform connectivity
- Microservices architecture setup
- IoT device integration
- Integration testing support
- Secure data exchange
- Scalable integration solutions

Cloud Solutions

At FIDSOR, we offer cutting-edge cloud solutions designed to enhance your business operations and drive growth. Whether you're looking to migrate to the cloud, optimize your cloud infrastructure, or leverage advanced cloud services, our team provides tailored solutions to meet your needs.

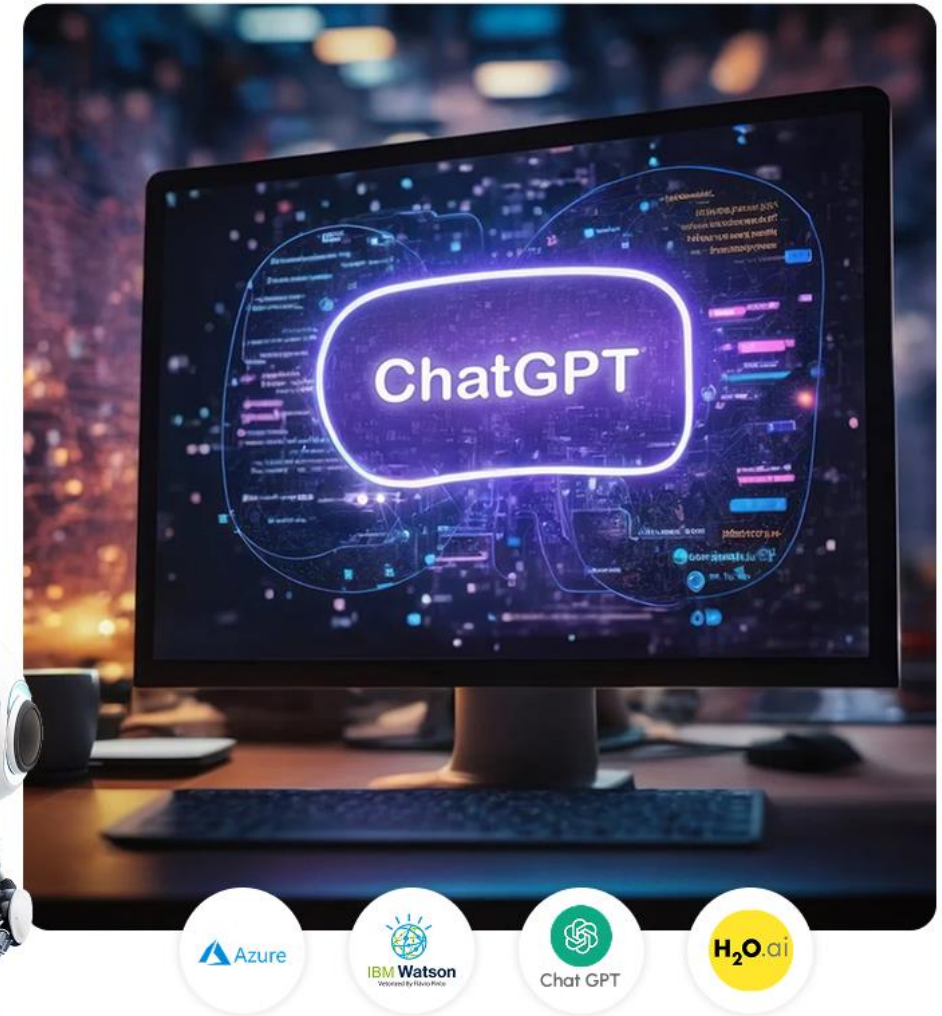

- Cloud Migration
- Cloud Infrastructure Setup
- Cloud Architecture Design
- Cloud Management & Optimization
- Disaster Recovery as a Service (DRaaS)
- Backup Solutions
- Cloud Security
- Cloud Application Development
- Server less Computing
- Cloud Storage Solutions
- DevOps and CI/CD Integration
- Multi-Cloud Strategy
- Cloud Cost Management
- Cloud Compliance
- Cloud Performance Monitoring
- Cloud Consulting
- Hybrid Cloud Solutions
- Cloud Integration Services
- Big Data Solutions
- IoT (Internet of Things) Integration

Artificial Intelligence (AI)

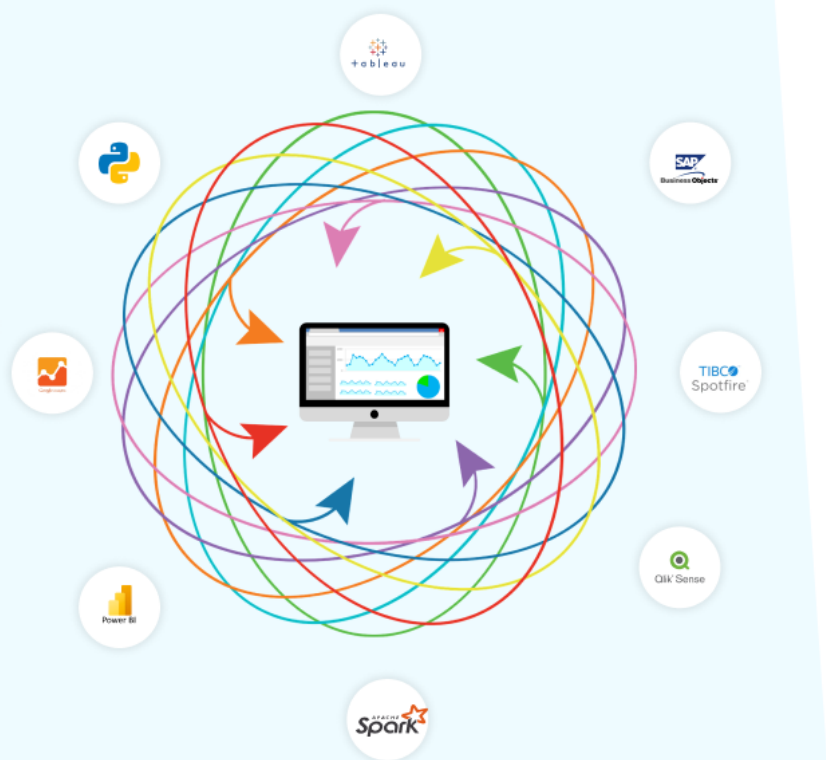

At FIDSOR, we leverage the power of Artificial Intelligence (AI) to drive innovation and transform your business operations. Our AI solutions provide intelligent insights, automation, and advanced capabilities to enhance efficiency and decision-making across various domains.

- Machine Learning
- Natural Language Processing (NLP)
- Predictive Analytics
- Robotic Process Automation (RPA)
- AI-Driven Data Analytics
- Recommendation Systems
- Speech Recognition
- AI Strategy & Consulting
- Custom AI Model Development
- Intelligent Automation
- AI-Powered Fraud Detection
- Chatbots & Virtual Assistants
- AI-Based Image & Video Analysis
- Cognitive Computing
- AI-Powered Personalization
- Anomaly Detection
- Text Analytics
- AI Model Training & Tuning
- AI Integration

Business Intelligence

At FIDSOR, we harness the power of data to drive informed decision-making and business growth. Our data analytics and business intelligence services provide actionable insights and strategic recommendations to help you navigate complex data landscapes and achieve your goals.

- Data Integration
- Data Visualization
- Business Intelligence (BI) Reporting
- Predictive Analytics
- Descriptive Analytics
- Prescriptive Analytics
- Data Warehousing
- Big Data Analytics
- Data Mining
- Advanced Analytics
- ETL (Extract, Transform, Load) Services
- Customer Analytics
- Financial Analytics
- Operational Analytics
- Competitive Analysis
- Data Quality Management
- Real-Time Analytics
- Self-Service BI
- Data Governance
- Benchmarking

Cyber Security

At FIDSOR, we offer a comprehensive range of cybersecurity services designed to protect your organization from evolving threats. Our solutions provide robust defenses and proactive strategies to safeguard your data, systems, and network infrastructure.

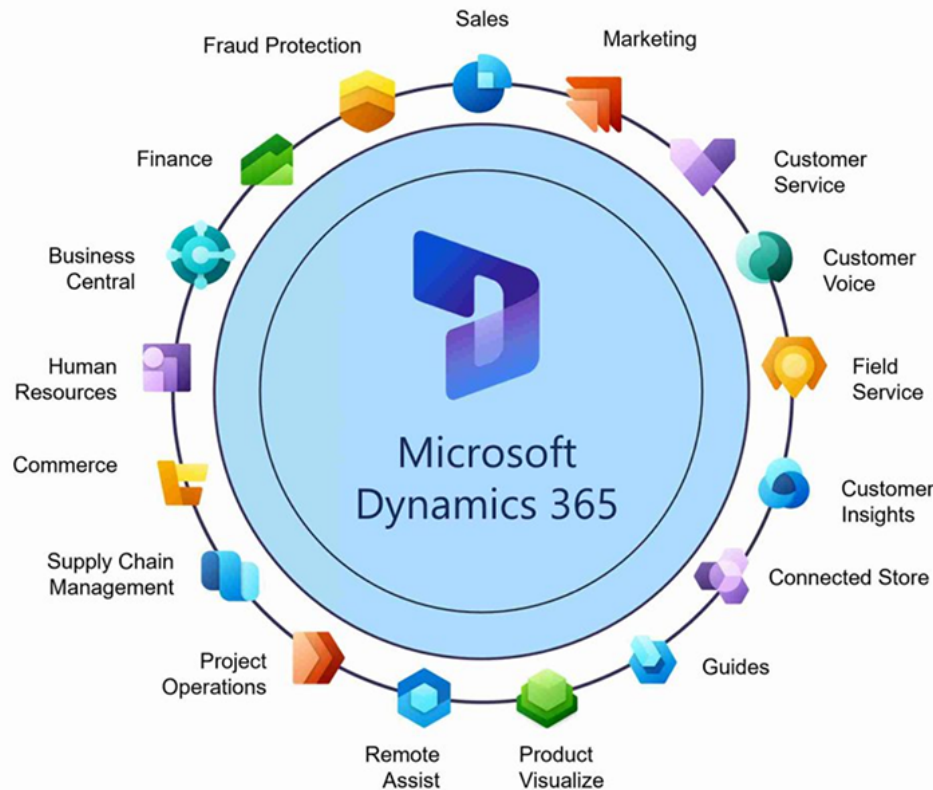

- Risk Assessment & Management
- Vulnerability Assessment
- Penetration Testing
- Security Audits
- Incident Response
- Managed Security Services
- Network Security
- Endpoint Security
- Identity and Access Management
- Data Encryption
- Security Information and Event Management (SIEM)
- Firewall Management
- Threat Intelligence
- Cloud Security
- Compliance & Regulatory Services
- Security Awareness Training
- Backup & Recovery
- Web Application Security
- Email Security
- Security Policy Development

Microsoft Dynamics 365

At FIDSOR, we specialize in providing comprehensive Microsoft Dynamics 365 services tailored to optimize your business operations, drive efficiency, and foster growth. Our expert team delivers customized solutions, seamless integrations, and strategic insights to help your organization leverage the full potential of Dynamics 365. Whether you're implementing, upgrading, or enhancing your existing systems, FIDSOR is your trusted partner in achieving digital transformation and long-term success.

- Mobile CRM
- Feedback & Survey Management
- Data Quality Management
- Customer Journey Mapping
- Integration with E-commerce

ERP Implementation

At FIDSOR, our ERP Implementation services are designed to streamline and unify your core business functions through powerful, scalable ERP solutions. We ensure a smooth transition by aligning systems with business needs, optimizing processes, and enabling real-time decision-making through integrated platforms.

- ERP strategy planning
- Business process mapping
- Requirement gap analysis
- ERP software selection
- System architecture design
- Data migration planning
- Module-wise implementation
- Content Creation & Management
- Workflow automation setup
- Customization & configuration
- Integration with systems
- Real-time data access
- Testing & quality assurance
- User training programs
- Change management support
- Go-live readiness checks
- Post-launch support
- Performance monitoring tools
- Compliance & audit setup
- Continuous process improvement

Quality Assurance (QA)

FIDSOR delivers end-to-end QA and testing services that cover every aspect of software quality. From functional and performance testing to security and usability assessments, we provide the expertise to ensure your software is reliable, secure, and ready.

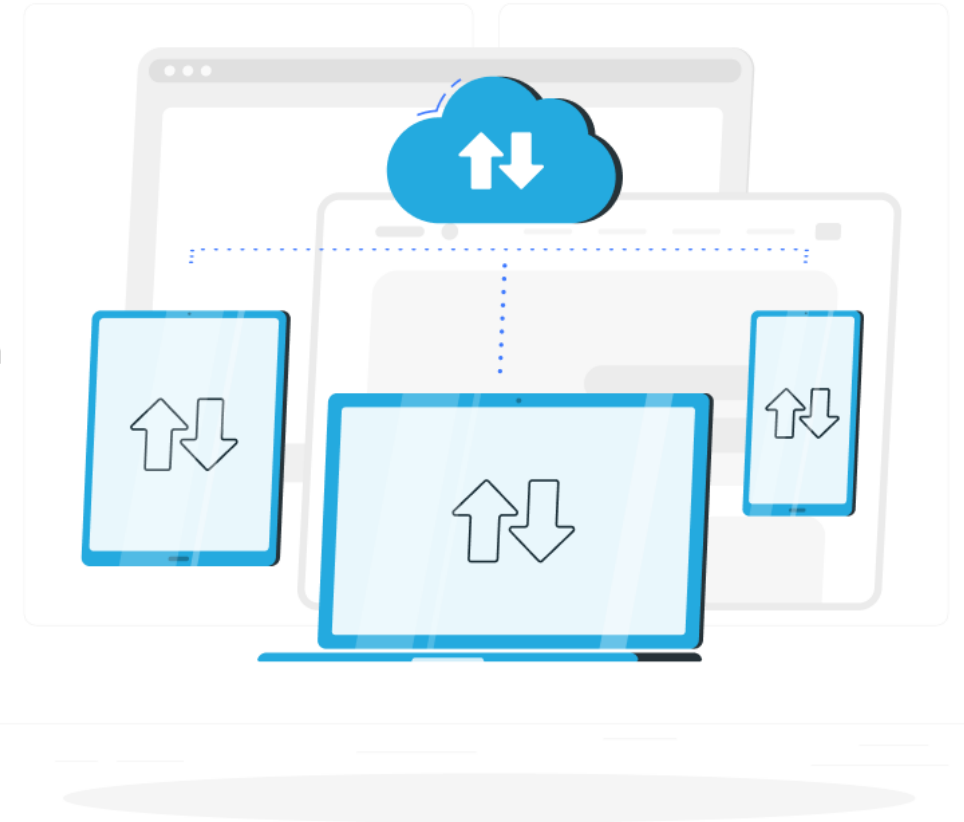

- Functional Testing
- Performance Testing
- Regression Testing
- Integration Testing
- User Acceptance Testing
- Security Testing
- Usability Testing
- Automation Testing
- Compatibility Testing
- Mobile Testing
- API Testing
- Data Quality Testing
- Load Testing
- Stress Testing
- Recovery Testing
- Exploratory Testing
- Compatibility Testing
- Internationalization and Localization Testing
- Test Management

Upgrade and Migration

At FIDSOR, we specialize in smooth upgrade and migration services to ensure your technology transitions are efficient and effective. Our expert team manages every aspect of the upgrade and migration process, minimizing disruption and maximizing performance.

- System Upgrade
- Software Migration
- Data Migration
- Cloud Migration
- Infrastructure Migration
- Database Migration
- Platform Migration
- Application Upgrade
- Operating System Upgrade
- Technology Stack Modernization
- Legacy System Replacement
- Business Process Migration
- Virtualization
- Backup and Recovery Migration
- Performance Optimization
- Compatibility Testing
- Risk Management
- Training and Support
- Documentation and Reporting
- Post-Migration Support

IT Consulting

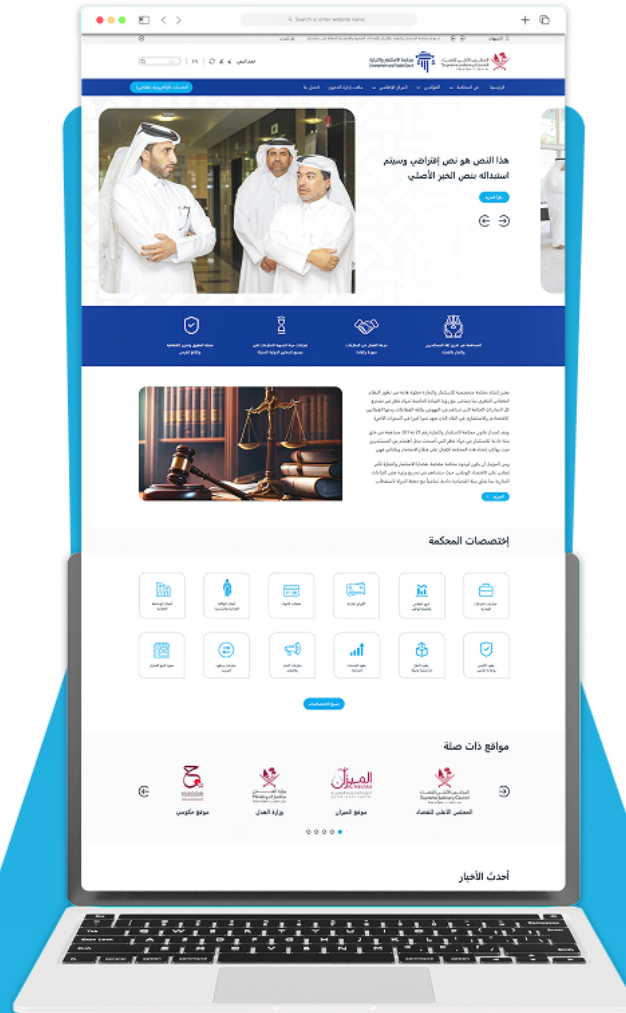

At FIDSOR, our IT Consulting services are designed to empower organizations to harness technology effectively, drive operational efficiency, and accelerate digital innovation. We provide strategic guidance and hands-on expertise to align your IT capabilities with your business vision.

- Strategic IT alignment
- Digital transformation consulting
- IT systems optimization
- Secure cloud migration
- Enterprise system integration
- Cybersecurity strategy support
- IT governance frameworks

King Abdul Aziz Public Library

About the Project

The King Abdul Aziz Public Library website is an e-library service that we designed and developed for a client in Saudi Arabia. Our team designed and developed the website, and mobile app to offer seamless access to digital library resources, ensuring an intuitive user experience for readers and researchers. The app promotes efficient navigation and resource management within the library's digital collection. KAPL also boasts the largest Arabic memory with 5.2 million cognitive items, serving more than 1,000,000 annual beneficiaries of its library services, databases, cultural, and scientific projects and programs.

- Advanced Search & Filtering
- Personalized User Dashboard
- Multilingual Support
- Digital Borrowing & Renewal System
- Offer to Sell Collectibles
- Collaborative Trainings
- Book Publication & Print Options
- 3rd Party Integration such as Nafath
- Library Branches and E-Services
- Library Media Center, Events & News Updates
- Modern Backend CMS

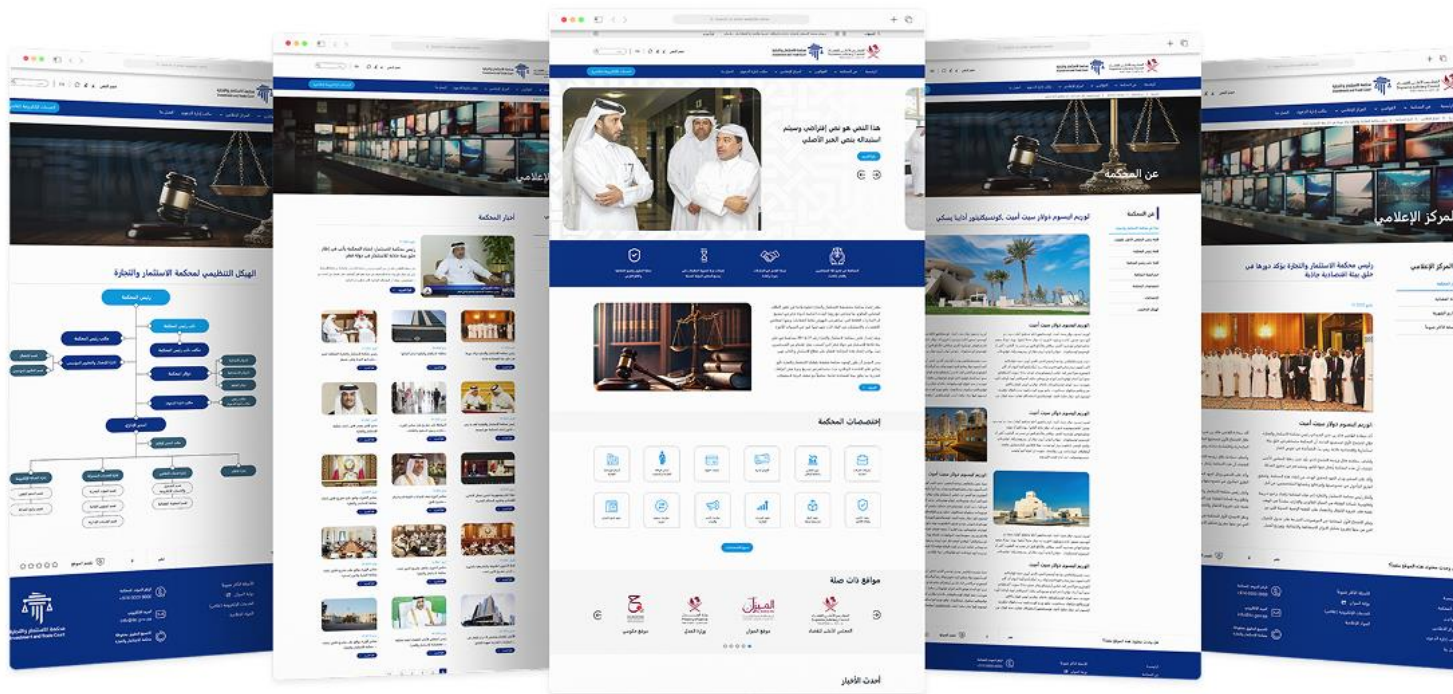

About the Project

Investment & Trade Court

The "ITC" website, developed for the Qatar government, serves as a dedicated platform for investment and trade court services. Our team crafted a user-friendly UI/UX design to enhance accessibility and streamline navigation, ensuring a seamless experience for users seeking information and services related to trade and investment matters. The website aims to promote transparency and efficiency within the investment framework in Qatar.

- Court Laws
- Court Jurisdictions
- Case Management System
- Search and Filter Functionality
- Media Center, News and Updates Section
- Investment Guidelines and Resources
- Contact and Support Information
- Multilingual Support
- Advance Backend CMS

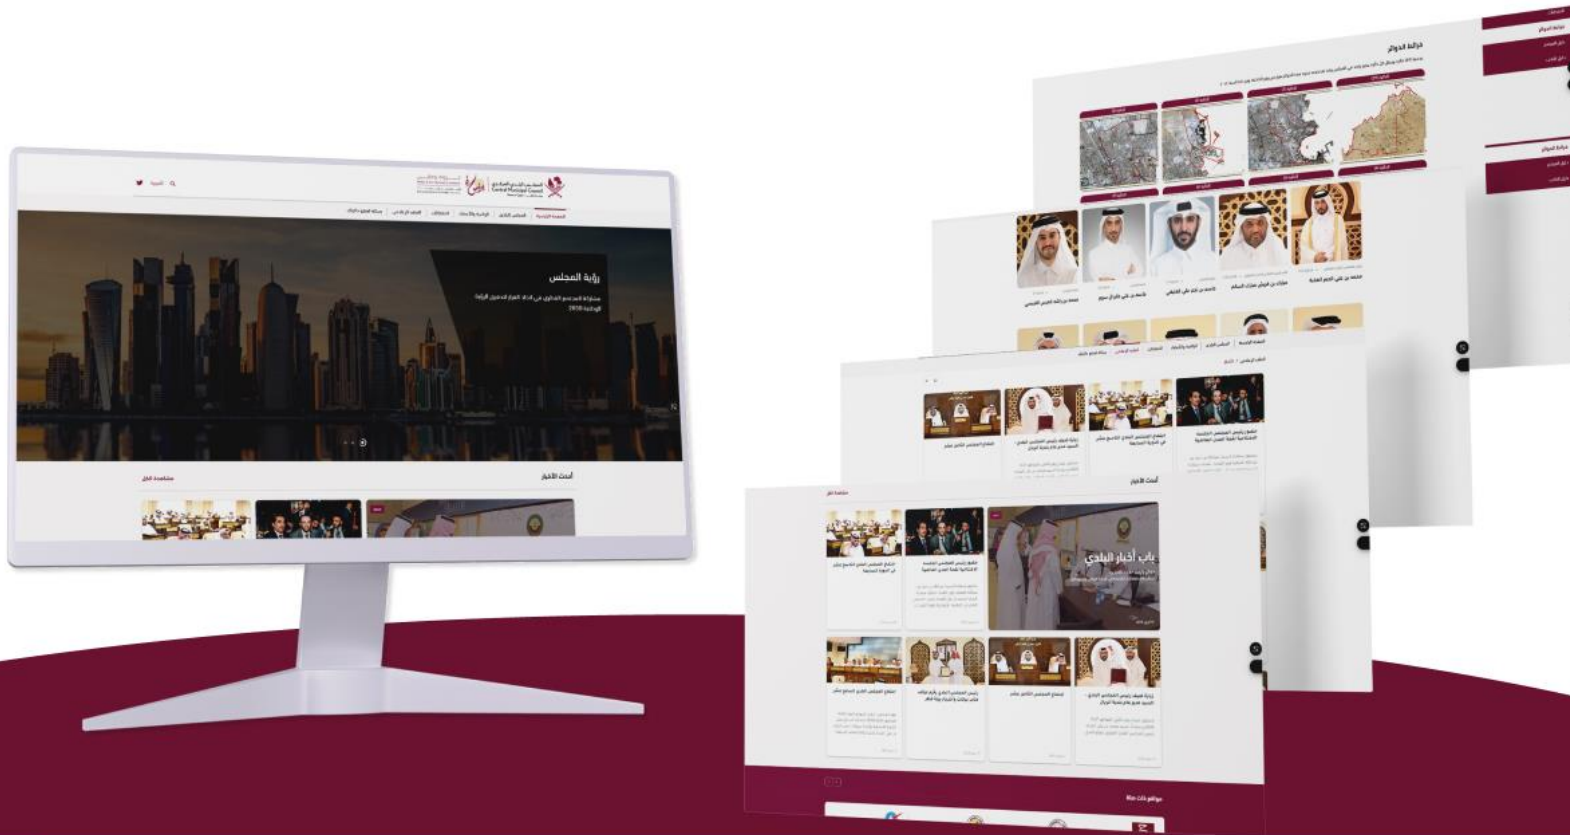

Central Municipal Council

About the Project

Our team designed and developed the CMC website, a comprehensive online platform for the Central Municipal Council of Qatar. The website is crafted to enhance public engagement and streamline access to municipal services. We created an intuitive UI/UX to ensure a user-friendly experience, enabling citizens to easily navigate resources, submit inquiries, and stay informed about local initiatives and council activities.

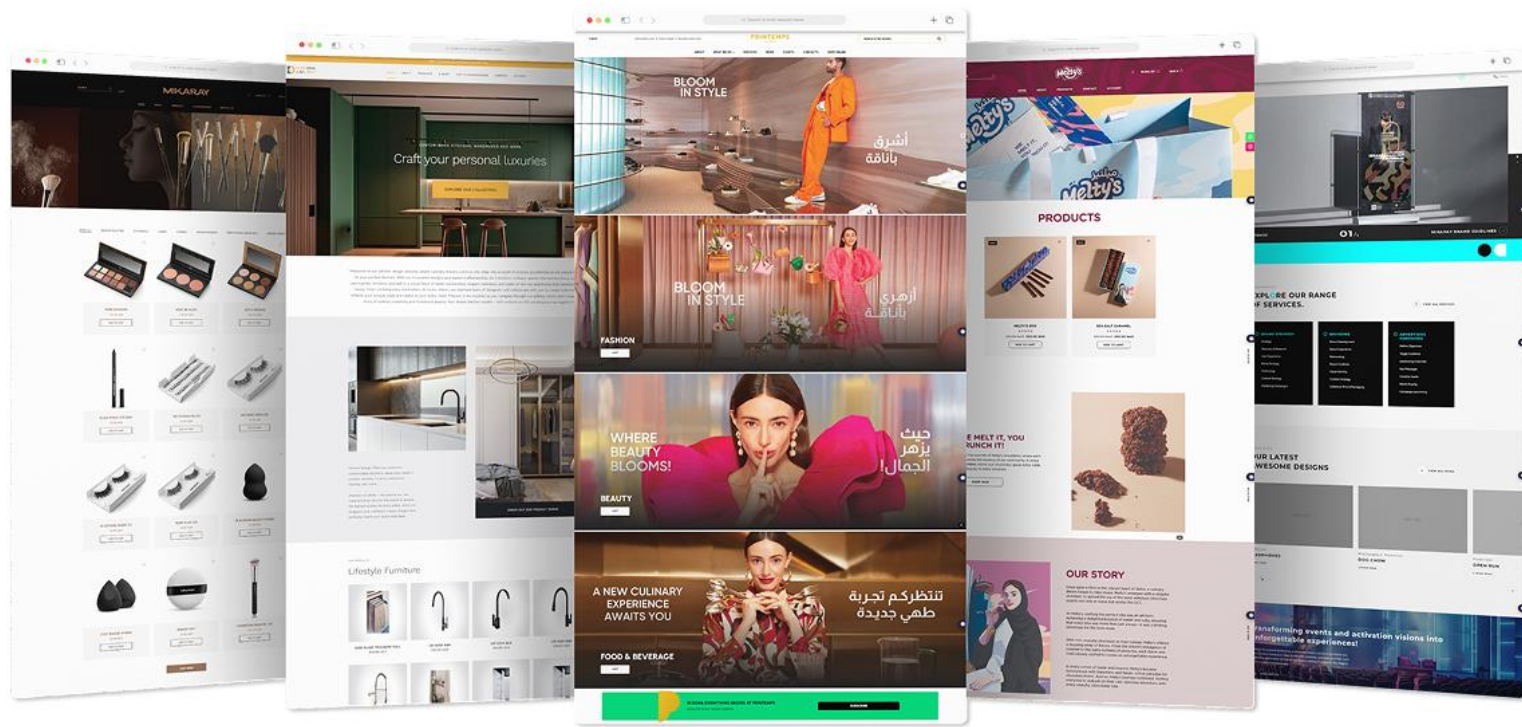

- User-Friendly Navigation
- Media Center, News & Publications
- Message for Circle Members
- Municipal Council
- Presidency & Members
- The Election
- Modern Backend CMS
- Multilingual Support
- Service Directory
- Online Inquiry Submission

Multiple Ecommerce Websites

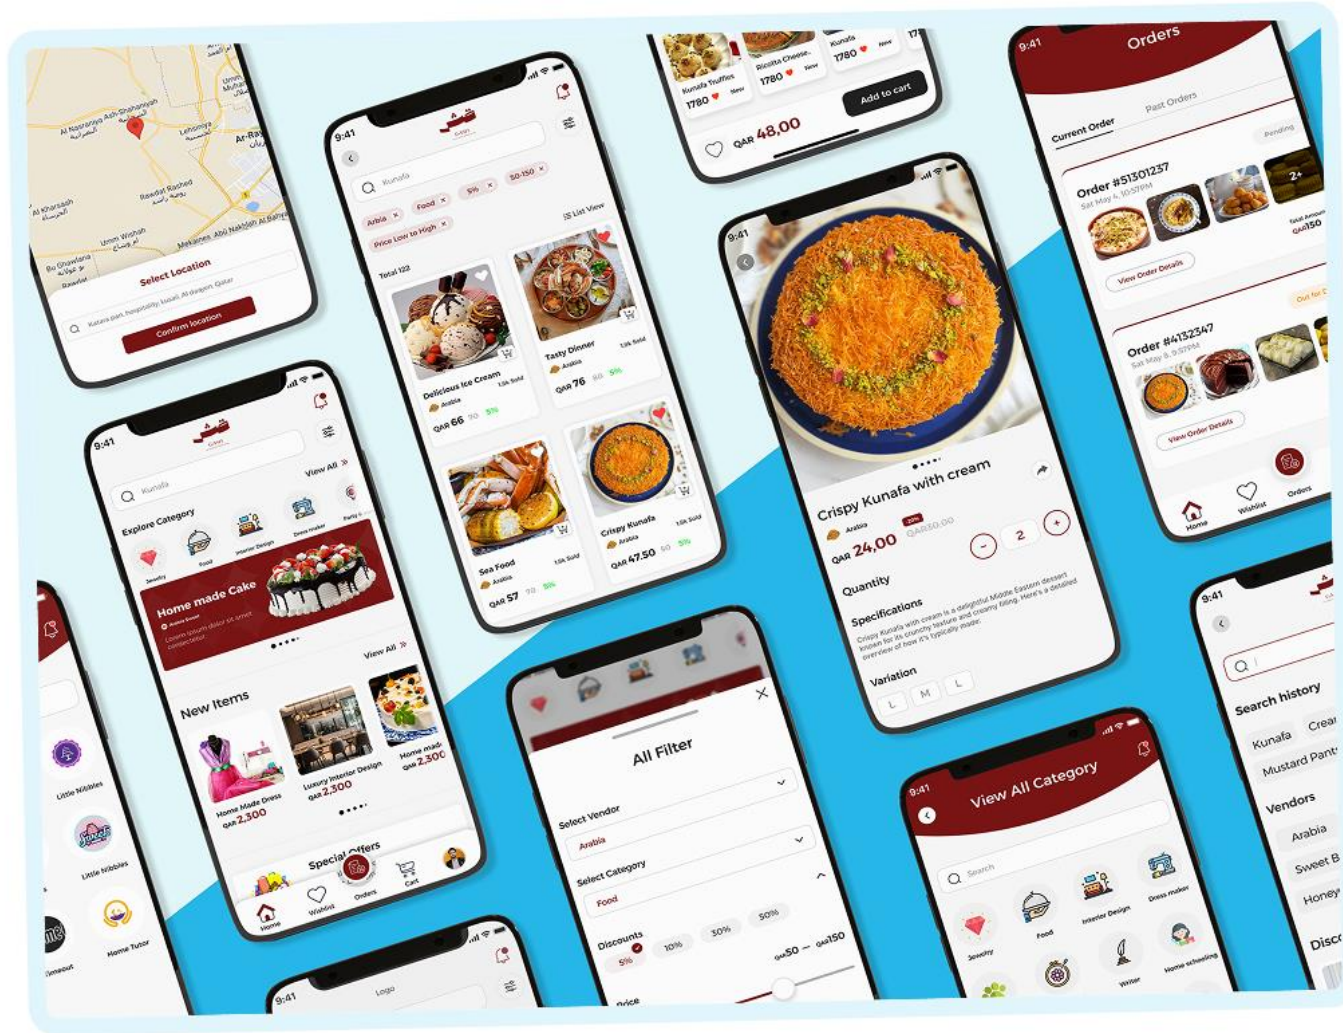

About the Project

At FIDSOR, we specialize in end-to-end e-commerce solutions, including UI/UX design, custom e-commerce web application development, mobile app development, and seamless integration with various external systems like payment processors and inventory management. We ensure a streamlined, engaging, and scalable digital experience for your business

- Product Catalog
- Shopping Cart and Checkout
- User Accounts
- Payment Gateway Integration
- Shipping Options
- Security Features
- Content Management System (CMS)
- Multilingual Support
- Search and Filtering
- Returns and Refunds
- Mobile Optimization
- Analytics and Reporting
- Marketing and Promotion Tools
- SEO Optimization

About the Project

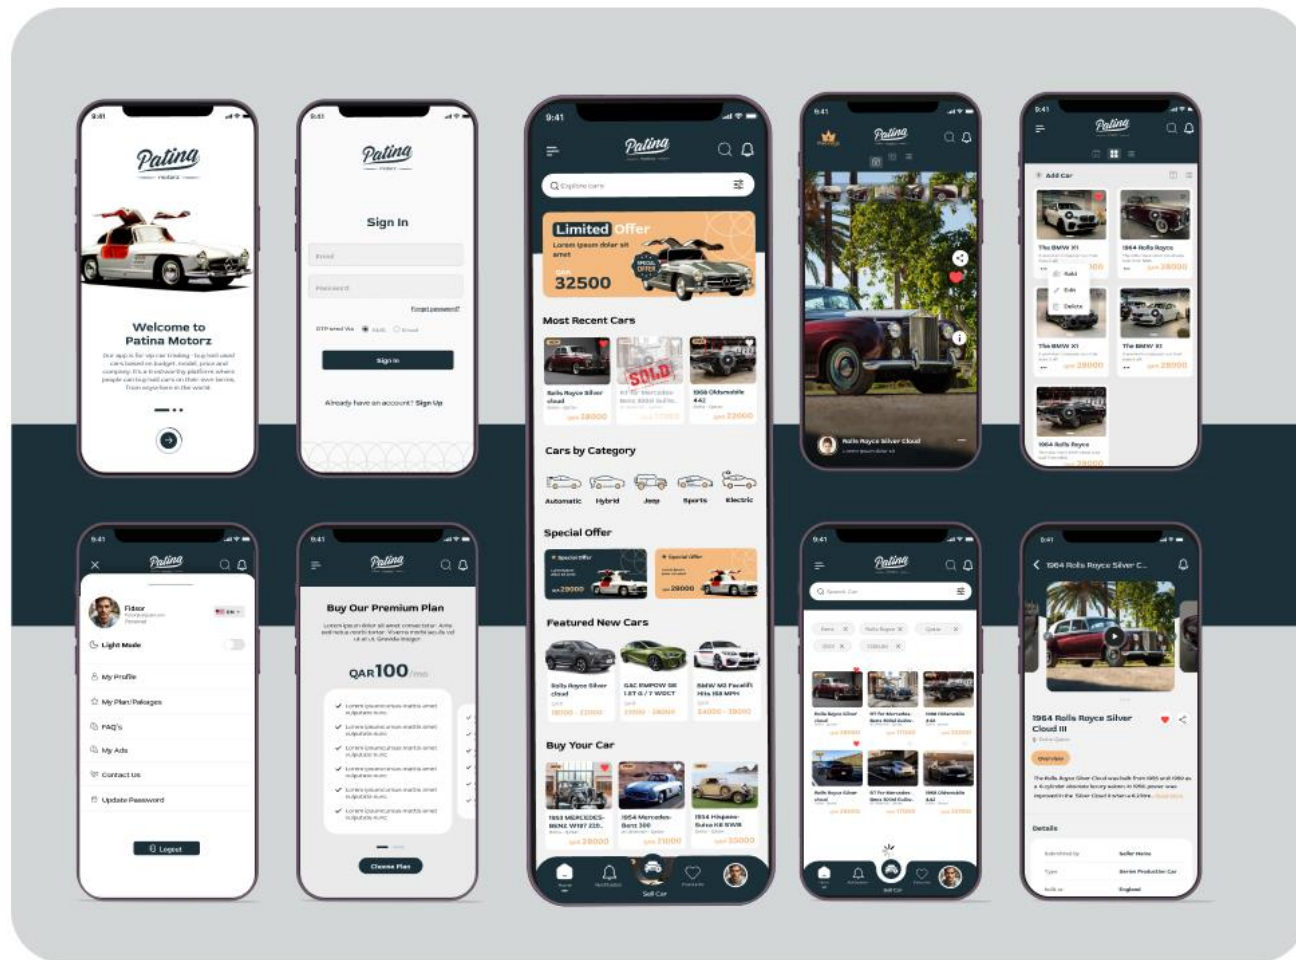

Gash Application

Gash is an app developed for a Qatar-based client, serving as a marketplace for unique homemade products. We were responsible for the complete UI/UX design and development, creating an intuitive platform that connects local artisans with buyers. The app offers a seamless shopping experience, fostering a community of creators and consumers passionate about handmade goods.

Project Features:

- User Registration & Profile Management
- Product Listings & Categories
- Search & Filtering
- Shopping Cart & Wishlist
- Secure Payment Integration
- Order Tracking & Notifications
- Seller Dashboard
- Reviews & Ratings
- In-App Chat
- Push Notifications
- Multilingual Support
- Location-Based Search

About the Project

Patina Application

Patina is an app designed by us, tailored for collectors, dealers, and individual users in the automotive industry. It serves as a marketplace for cars and automotive products, offering a user-friendly experience with a sleek UI/UX. The app is created for the Qatar market, supporting seamless transactions and interactions for automotive enthusiasts.

Project Features:

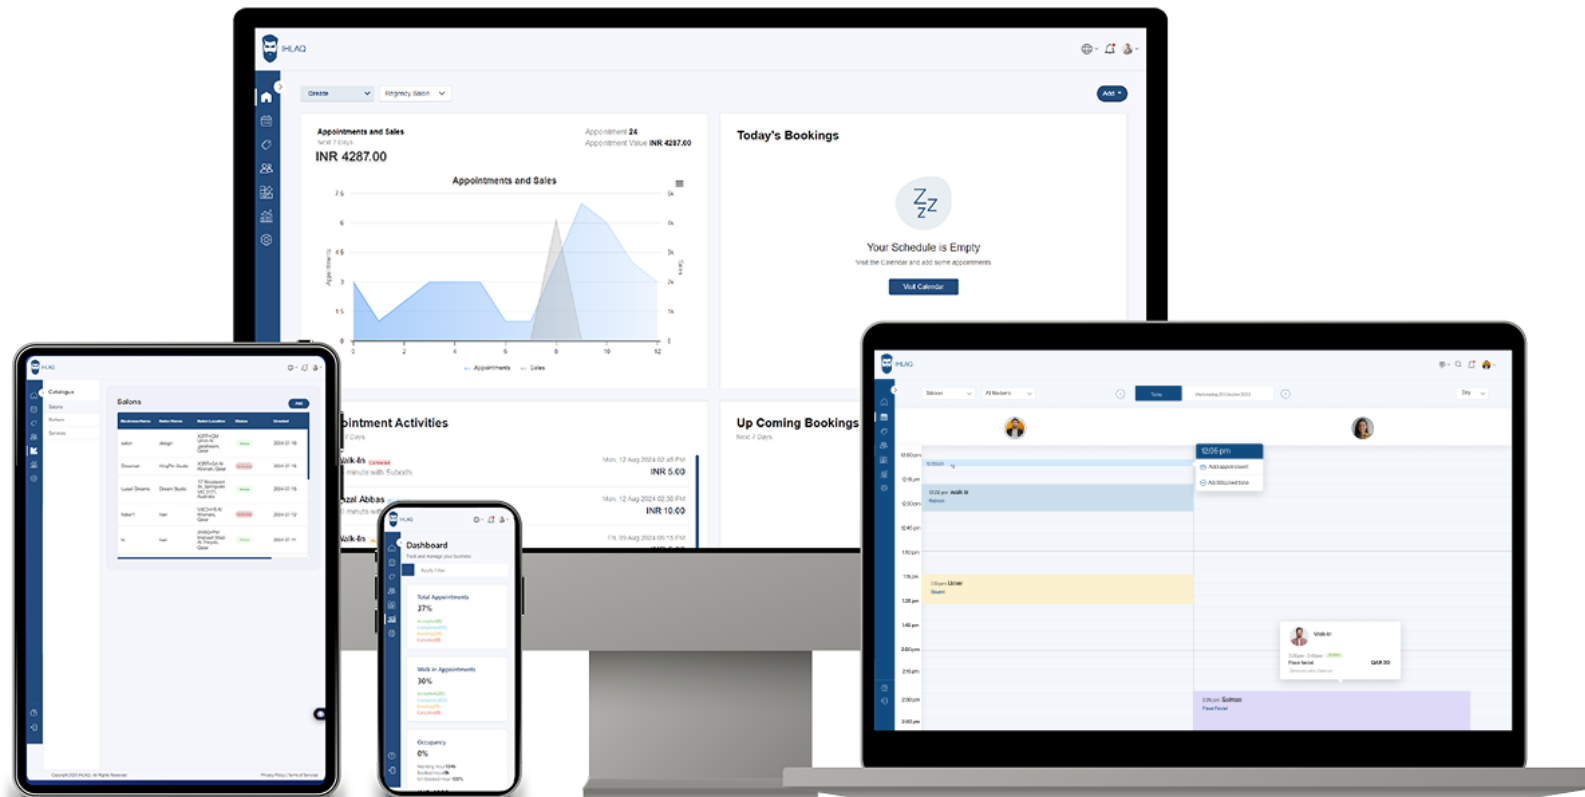

- Collector's Showcase
- Dealer's Hub
- Personal Garage
- Advanced Search & Filters
- Car & Product Insights
- Product Listings & Bids
- Secure Transactions
- Reviews & Ratings
- Seller & Buyer Reviews
- Wishlist & Watchlist
- In-App Messaging
- Real-Time Notifications

About the Project

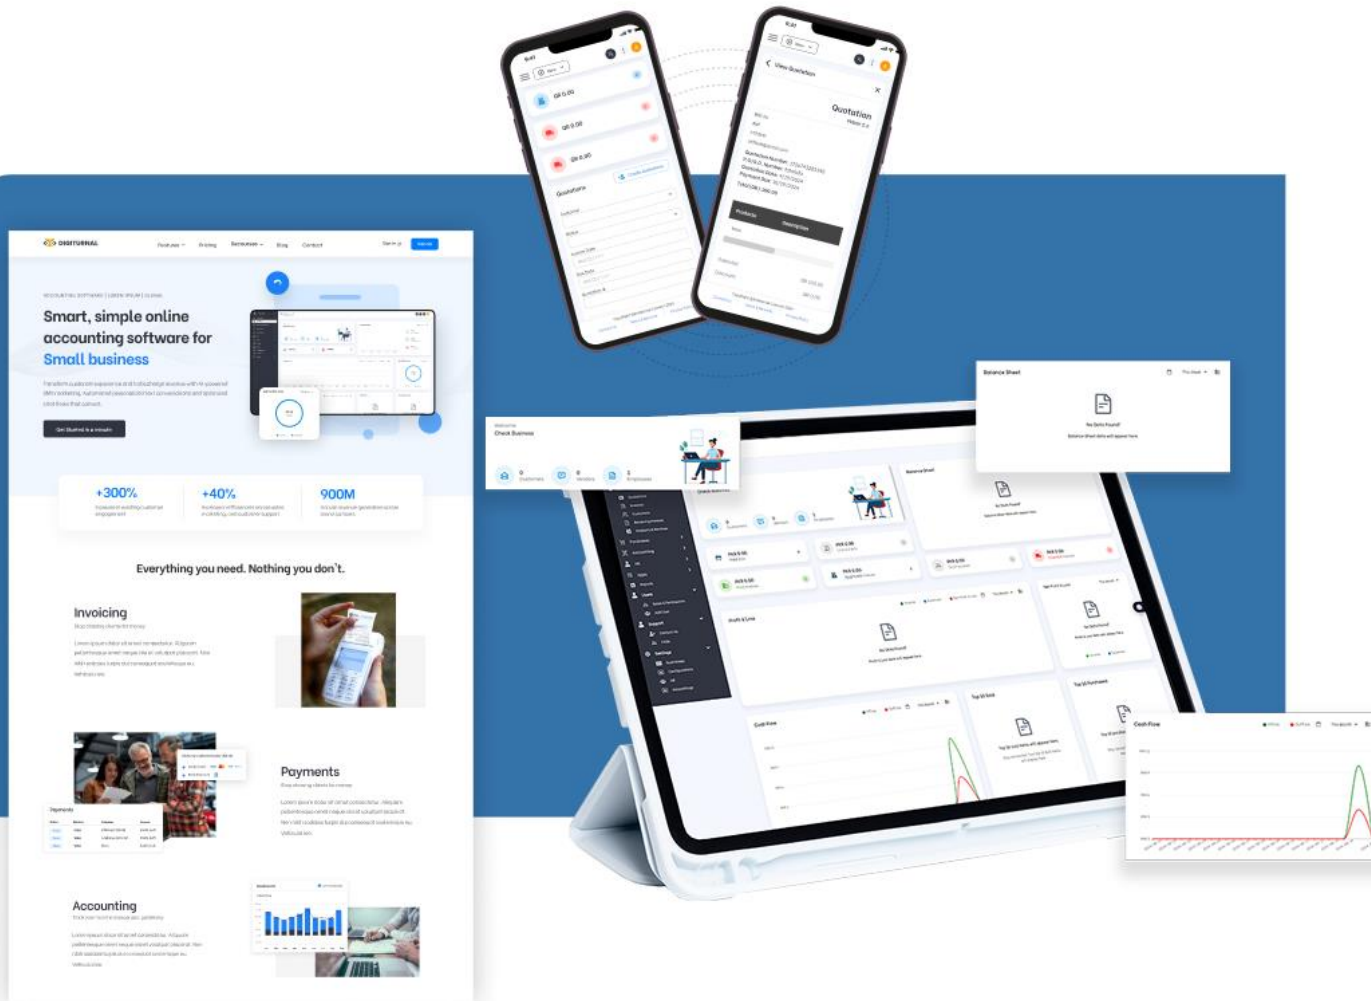

IHLAQ

IHLAQ is a comprehensive salon management system designed and developed by us for a client in Qatar. We handled both the UI/UX design and the development of the platform, ensuring a seamless user experience across iOS, Android, and web platforms. The app streamlines salon operations, offering easy scheduling, customer management, and service tracking for salon owners and staff.

- Appointment Scheduling
- Customer Management
- Staff Management
- Payment Processing
- Inventory Management
- Loyalty Program
- Reporting & Analytics
- Multi-Branch Support
- Push Notifications
- Online Booking Portal
- Review and Feedback System
- Promotional Offers Management

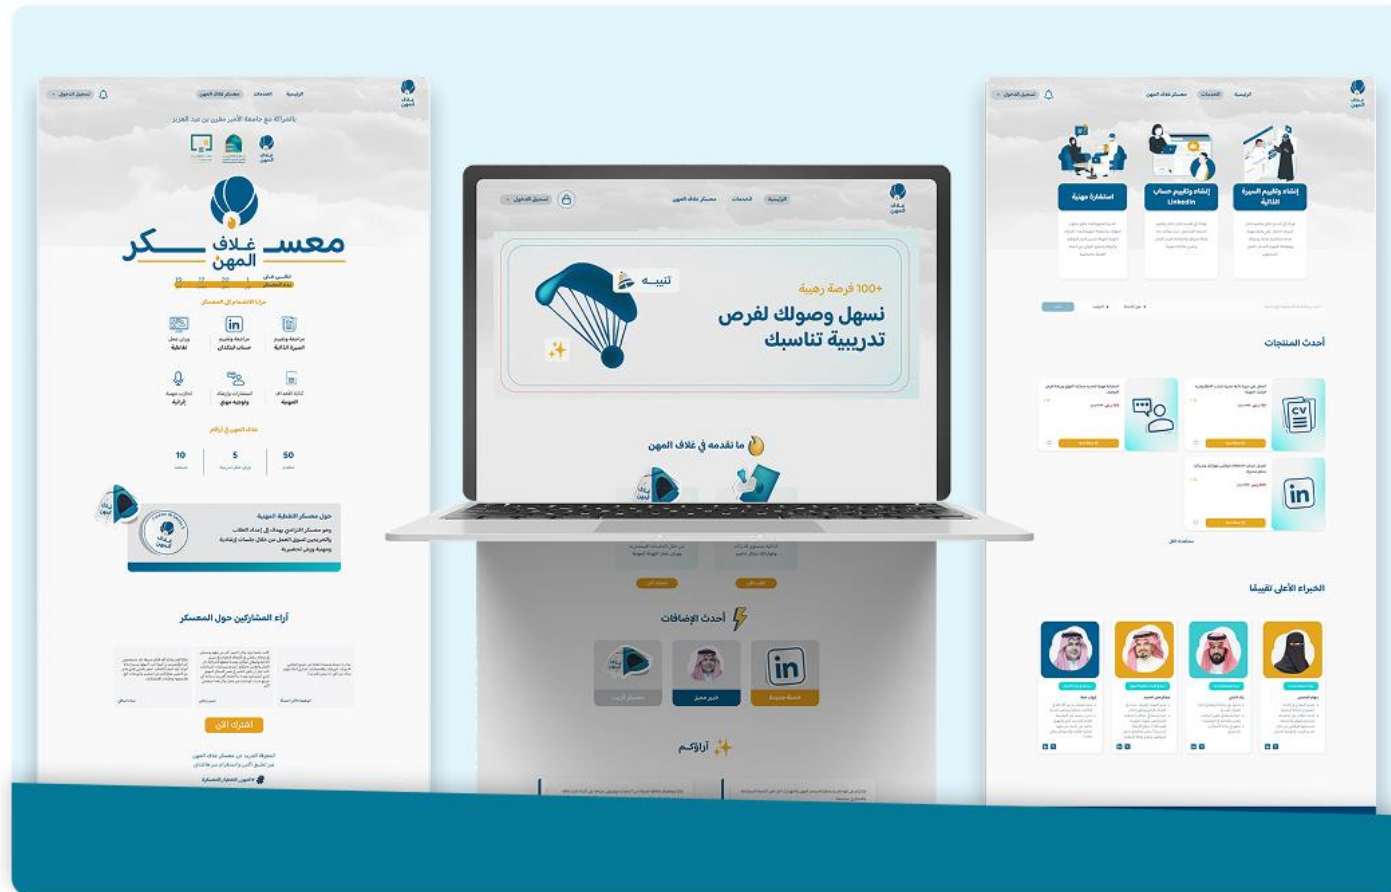

About the Project

Accounts Application

The Accounts Dash Application is a SaaS web based platform for Accounts Management and HR processes, designed and developed by us for a client in Qatar. The app streamlines financial operations and human resource functions, providing an intuitive user experience that enhances organizational efficiency.

- Launchpad & Dashboards
- Chart of Accounts
- Sales & Payments
- Purchases
- Accounting
- Payroll Management
- Employee Onboarding
- Expense Tracking
- Time and Attendance
- Financial Reporting
- Leave Management
- Benefits Administration
- Tax Calculations

- Performance Evaluation
- Products
- Customers
- Vendors
- Bills
- Invoices

About the Project

Tryghelaf

TryGhelaf is a comprehensive CV-making website developed for a client in Qatar. The platform features distinct modules for experts, users, and administrators, facilitating seamless interaction and tailored support for crafting professional resumes. With an intuitive interface and robust functionality, TryGhelaf aims to empower individuals to create standout CVs and enhance their career opportunities.

- User Profiles
- CV Builder
- Expert Guidance
- Multi-Module Access
- Real-Time Collaboration
- Download and Export Options
- Performance Tracking
- Tips and Resources
- Admin Dashboard

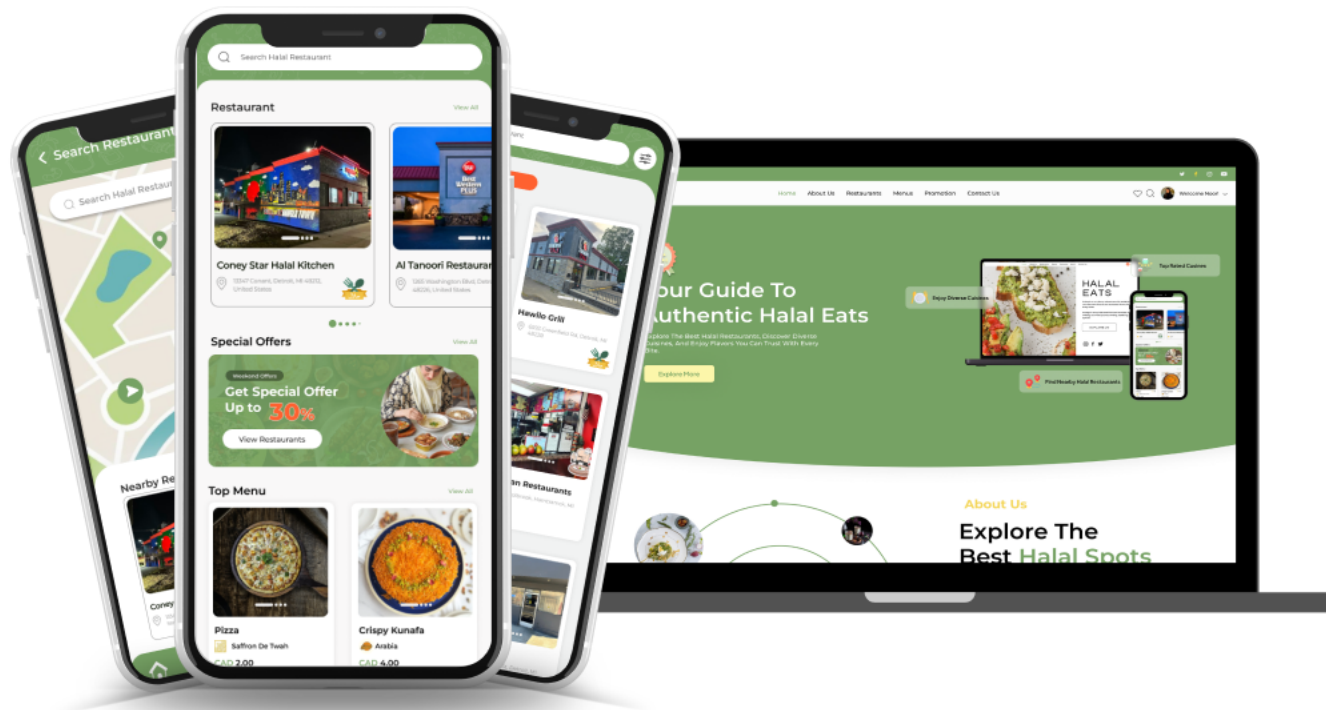

About the Project

Quality Home Medical Care

QHMC is a healthcare platform designed to streamline operations and improve patient care in Qatar. Key features include patient management, appointment scheduling, real-time data monitoring, and telemedicine integration. With a user-friendly interface and secure data management, QHMC enhances communication and workflow for healthcare providers.

- Patient Management
- Appointment Scheduling
- Real-Time Data Monitoring
- Healthcare Analytics
- Telemedicine Integration
- Patient Portal
- Admin Dashboard for Centralized Control
- Data Security and Compliance

About the Project

Halal Eats

QHMC is a healthcare platform designed to streamline operations and improve patient care in Qatar. Key features include patient management, appointment scheduling, real-time data monitoring, and telemedicine integration. With a user-friendly interface and secure data management, QHMC enhances communication and workflow for healthcare providers.
